

KRISHNA PRASAD SHAH

AI/ML Engineer | Generative AI | LLM Applications | RAG Pipelines | Agentic AI
Vijayawada, India | [+91-9123120069](tel:+91-9123120069) | gautamshah826@gmail.com | [LinkedIn](#) | [GitHub](#)

Professional Summary

Motivated AI/ML Engineer with hands-on experience building LLM-powered applications, RAG pipelines, and agentic AI systems. Proficient in LangChain, LangGraph, FastAPI, and modern vector databases. Experienced in responsible AI practices including guardrails, PII protection, and content safety.

Education

SRM AP

2023 – 2027

B.Tech in Computer Science and Engineering

Andhra Pradesh, India

- **Core Courses:** Machine Learning, Deep Learning, NLP, Data Structures & Algorithms, DBMS, Operating Systems, OOP

Modern Indian School

2023

Higher Secondary Education (Science)

Kathmandu, Nepal

Technical Skills

Languages: Python, C++, SQL, JavaScript, TypeScript

AI/ML & GenAI: Machine Learning, Deep Learning, NLP, Transformers, RAG, Prompt Engineering, Fine-tuning, Agentic AI, LLM Evaluation

Frameworks & Tools: LangChain, LangGraph, Hugging Face, TensorFlow, FastAPI, Flask, React.js, Node.js, Express.js

Databases & Vector Stores: FAISS, MongoDB, PostgreSQL

Cloud & DevOps: AWS, Docker, Git, GitHub Actions, CI/CD Pipelines

MLOps/LLMOps & Responsible AI: Model Monitoring, Prompt Versioning, Observability, Token Optimization, PII Protection, Guardrails, Content Filtering

Experience

Software Development Intern

May 2024 – Jun 2024

Salesforce

Remote

- Developed automation-driven solutions using Salesforce Flow and Apex triggers, reducing manual effort by **40%**.
- Delivered UI and platform optimizations that increased visitor engagement by **25%**.
- Translated business requirements into scalable technical solutions with thorough testing and documentation.

Projects

PolicyPulse – AI Policy Simulator — Python, Gemini LLM, Scikit-learn, Streamlit, Plotly [\[GitHub\]](#)

- Built AI-powered synthetic population simulator stress-testing government & corporate policies across **10,000+** virtual citizens using Python, Gemini LLM & Scikit-learn neural networks.
- Achieved **85%+** accuracy in policy impact predictions via hybrid ML pipeline across **3 simulation modes** (Precision, Balanced, Speed).
- Designed **14-module** architecture with **7-area** test suite, Plotly dashboard & Streamlit Cloud deployment with zero-config setup.

Agentic AI Chatbot (Adaptive RAG) — LangGraph, FastAPI, Python, Qdrant, MongoDB [\[GitHub\]](#)

- Devised an end-to-end Adaptive RAG agentic chatbot using FastAPI, LangGraph, Qdrant, and MongoDB with **3 dynamic routing pipelines** (Index, General, Web Search).
- Implemented a scalable MongoDB database solution with role-based access control; automated previously manual attendance tracking processes, saving **30+ hours/month** and enhancing overall operational efficiency.
- Achieved async API-first architecture reducing query latency by **~30%**; refined modular RAG pipeline with query rewriting, relevance scoring, and multi-agent ReAct orchestration.

AI Attendance & Hostel System — React.js, Node.js, Express.js, MongoDB, Python, OpenCV [\[GitHub\]](#)

- Composed a full-stack attendance and hostel management platform with JWT-based auth supporting **2 roles** (Admin, Student), featuring a real-time dashboard, attendance history, and CSV analytics export.
- Integrated AI-powered face recognition (OpenCV + face_recognition library) achieving **95–99%** accuracy with **<2 sec** real-time attendance processing across 10+ REST API endpoints.
- Devised a scalable MongoDB persistence layer with role-based access control; automated hostel management workflows reducing administrative overhead by eliminating manual attendance tracking.

Achievements

- Solved **200+** coding problems across LeetCode, HackerRank, CodeChef, and GeeksforGeeks.
- Secured in TOP 5 in ECE Hackathon; Achieved a real-time object detection system using computer vision (OpenCV/YOLO).

Certifications

- **ML Specialization:** Breast Cancer Prediction, K-Means Clustering, SVM, Logistic Regression, Naive Bayes, NLP Sentiment Analysis, Data Visualization, Linear Regression
- **Google Cloud Skill Badges:** Inspect Rich Documents with Gemini Multimodality, Prompt Design in Vertex AI
